

Palona TUNER 190C

19" HiFi-tuner with internet radio/DAB+/UKW/Bluetooth/USB/WLAN/Spotify

The TUNER 190C leaves nothing to be desired. A master piece in quality and equipment, which updates your consisting hifi system to the state of the art.

Music streaming

You would like to hear the music of your mobile phone by your hifi system? No problem. You can connect your Tuner 190C via Bluetooth with your mobile phone within seconds. You also could use streaming services as Deezer, Juke or Amazon music very simple with Bluetooth from your mobile phone to the hifi system. For Spotify you have a direct line to the Tuner 190C, but here you need a Spotify premium account.

Remote control and app control

The high-quality remote control permits you to control the Tuner 190C easily. All menu points, as well as favorite stations can be controlled easily. The UN-DOK app is gratis in the Apple Store and for Android mobile phones in the Google Play Store available. After installation of the UN-DOK app the Tuner 190C can be controlled in the complete network and you have access to all settings.

(Please pay attention to hold the network line in the standby mode).

Very easy operating

The Tuner 190 C is self-explaining and leads you through the menu during the first installation. Nevertheless we recommend to read the attached operation instruction to become acquainted with its functions. Both lit-up rotary buttons allow the access to volume and the menu and the also lit-up back button brings you back through the menu.
