Description

Kea is a high performance absorber, with elements of mid-high diffusion, perfect for controlling first reflections and regulating reverberation inside a room. With an absorption treatment range between 250 and 4000 Hz, KEA can be easily mounted on walls and ceiling. Kea's 3D pattern, an Artnovion trademark, allows you to easily combine it with itself, or even with other panels from our collection. Create a mesmerizing design across your walls, turning your spaces into unique environments.
