Weight | 3,65 Kg*

Units per box | 4

Box Weight | 17,35 Kg*

Installation - Mechanical

Packing Dimensions - 640x385x640mm

* Approximate weight

Description

Logan Diffuser provides diffusion over any bandwidth, given the precise width and depth of the integrated surface treatment. The scattering begins at 400 Hz and goes up to 4000 Hz. Usable for all noise control, but above all for musical applications, Logan is a high quality and high performance solution for broadcasting, recording or post production studios, and music practice rooms. With a furniture grade quality and available in several woods and finishes, Logan Diffuser is an aesthetically pleasing addition to any space.
