

Myron E

Diffuser
High-End

Specifications

Finishing Material : **EPS**
 Dimensions - **595x 595 x 150 (mm)**
 Weight - **available soon**
 Installation - **Chemical**
 Hs-Code - **39203000**

Description

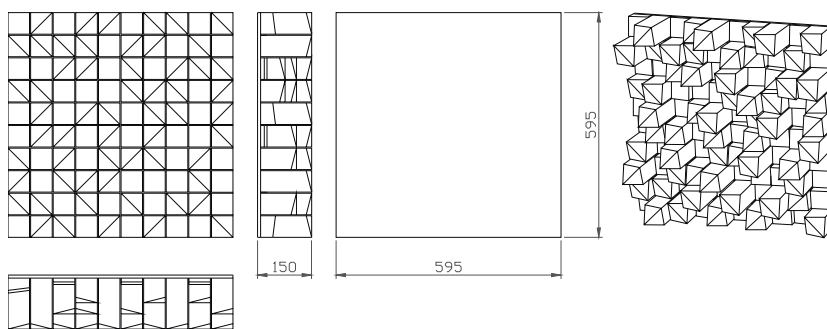

In spaces like recording control rooms, mastering rooms or other high fidelity listening environments where the sound quality is critical, solving the problem of the bandwidth of diffusion becomes a priority. Myron E Diffuser was conceived and developed by Artnovion with a specific technical advantage, which allows it to perform way beyond what most of other sound diffusing products are able to deliver. This panel is made from EPS and comes in 2 different colours.

EPS color:

E 01

Technical Information

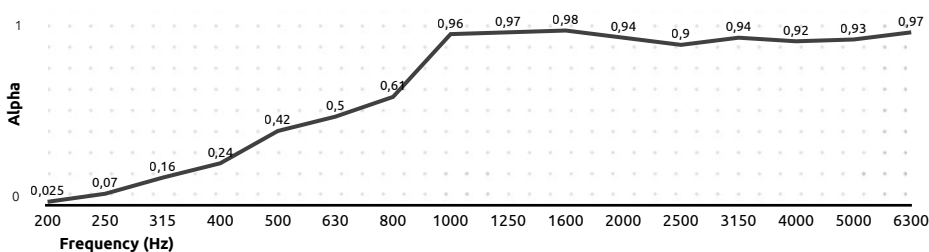

Packaging

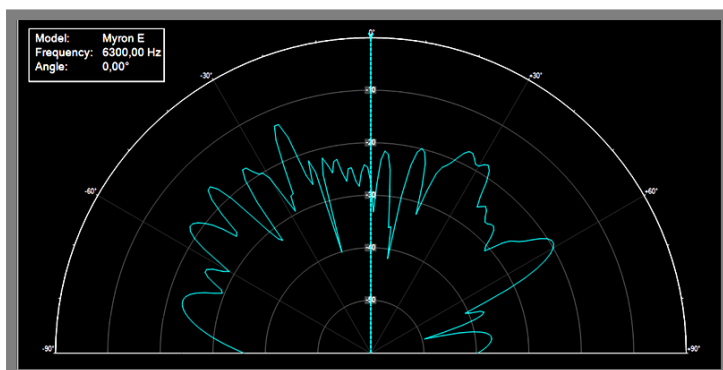

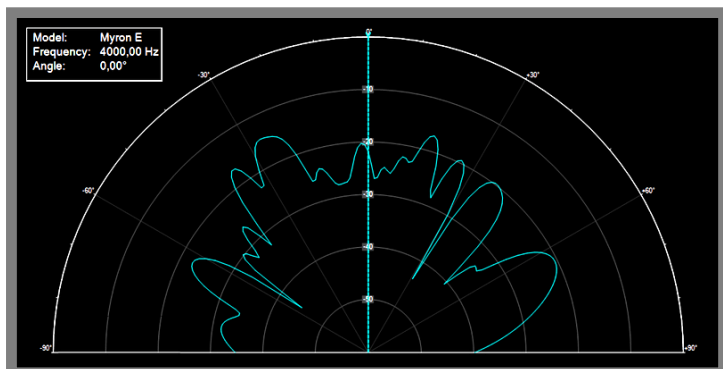

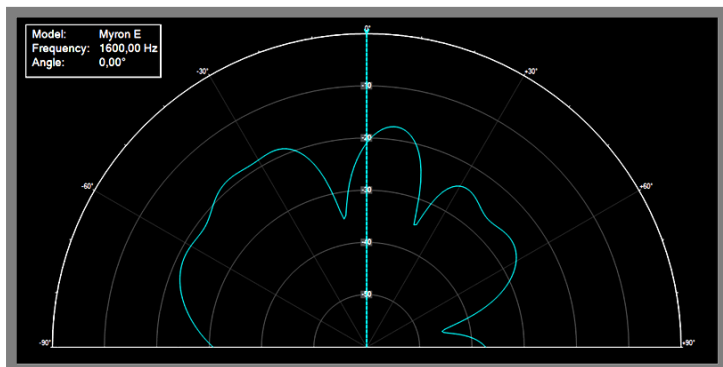

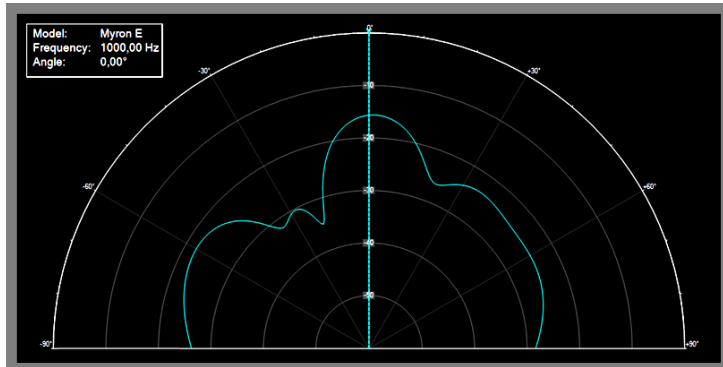

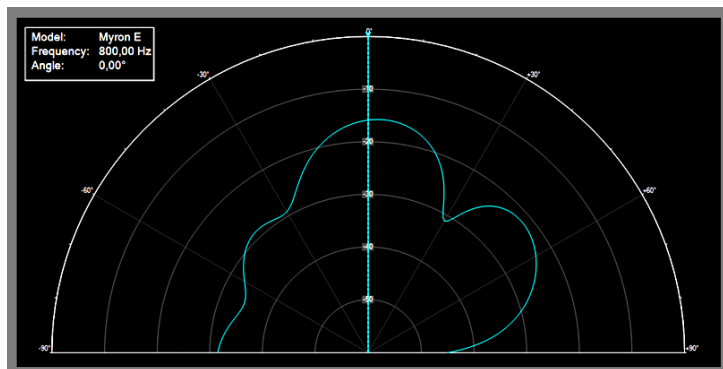

Dimensions - 620 x 385 x 620 (mm)
 Weight - available soon
 4 Units per box

* Approximate weight

Performance (computer estimation - Finite Elements - Scattering coefficient)
