Description

Ulysses Bass Trap is a flagship product for the professional audio market, used solely for the treatment of low frequencies in a room. Ulysses unique technology allows adjustment to target a specific range of low frequencies, from 40Hz to 60Hz, 60Hz to 80Hz and 80Hz to 100Hz. For a more efficient acoustical treatment we recommend installing Ulysses in corners. With a simple and timeless design, Ulysses comes with a fabric finish available in different colours and adjustable to your unique preferences and environment.
