

Description

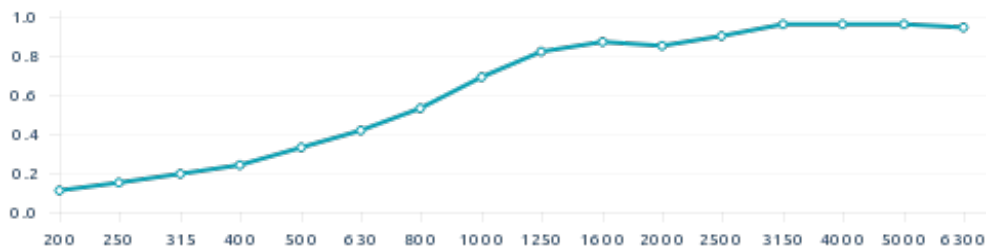

Jaya WDiffuser is a product with an exquisite design, aiming to reach maximum high frequency diffusion. This handmade elliptic panel was designed to give you maximum efficiency in every way, particularly at high frequencies. The scattering of this panel begins at 800 Hz and offers effective and even diffusion up to 6000 Hz.

This premium product is available in a wood finish or in lacquered colours, making it ideal to be used on the front, back or side walls of your room, as well as ceilings.
