

Description

Arvon W Diffuser begins scattering at 900 Hz and goes up to 6000 Hz, providing a more uniform sound field through mid and high frequency diffusion. Made of wood from a sustainable source, and available in 4 colours, Arvon has a furniture grade quality, becoming an exquisite diffuser that will fit nicely in your home cinema or living room. Optimised through an Artnovion patented technique, you can carry 2 units per box by clicking them into each other, and fitting them together as a single unit.
