

**Arvon W**

**Diffuser**  
High-End

**Specifications**

Finishing Material : **Wood**  
 Dimensions - **595x 595 x 78 (mm)**  
 Solid weight - **10 Kg\***  
 Lacquered weight - **available soon**  
 Installation - **Mechanical**  
 Hs-Code - **available soon**

**Description**

Arvon W Diffuser begins scattering at 900 Hz and goes up to 8000 Hz, providing a more uniform sound field through mid and high frequency diffusion. Made of wood and available in 4 colours, Arvon has a furniture grade quality, becoming an exquisite diffuser that will fit nicely on your home cinema or living room. Optimised through an Artnovion patented technique, you can carry 2 units per box by clicking them into each other, and fitting them together as a single unit.

Solid wood finishes:

W 04

Lacquered wood finishes:

L01

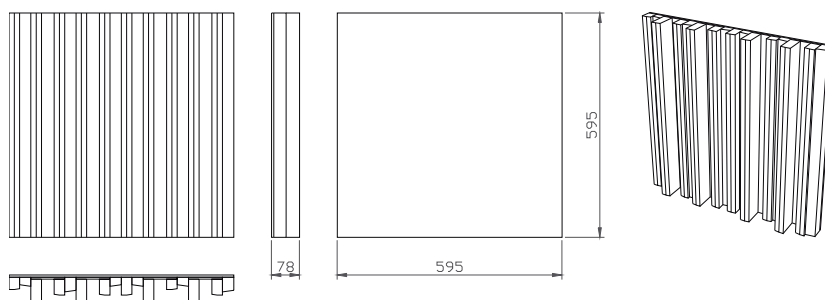

L02

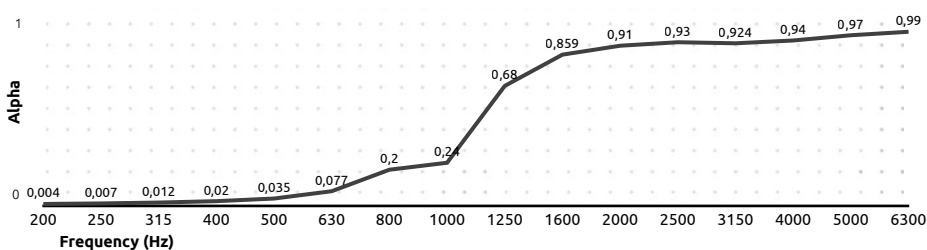

L03

**Technical Information**

**Performance** (computer estimation - scattering coefficient)

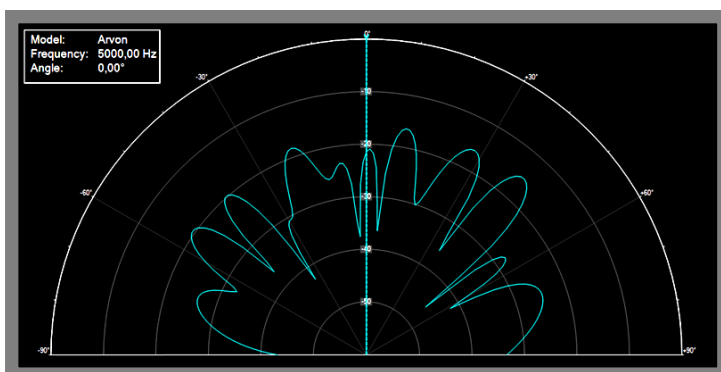

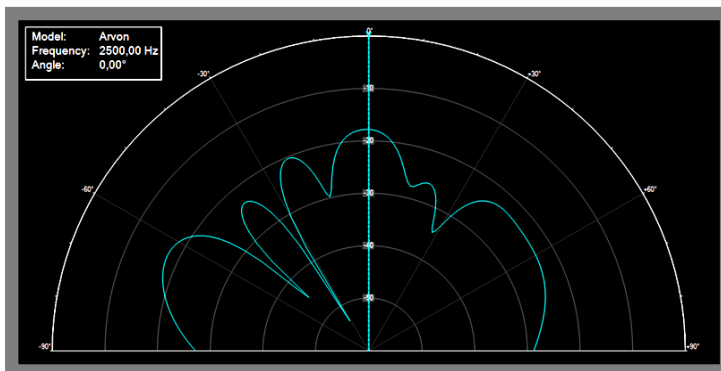

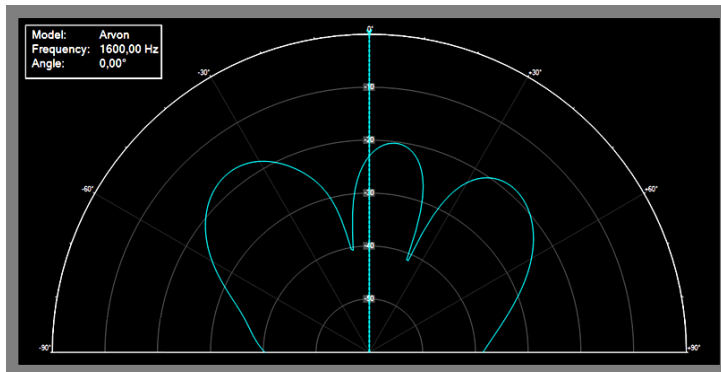

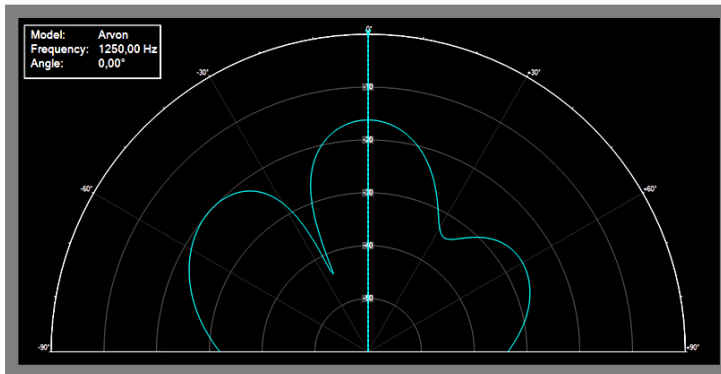

**Packaging**

Dimensions - 620 x 385 x 300 (mm)  
 Solid wood weight - available soon  
 Lacquered weight - available soon  
 2 Units per box

\* Approximate weight
