## technical data

### effeqt floorspeaker

a work of art for eyes and ears: the **effeqt** floorspeaker was developed for the brilliant stereo enjoyment, but also provides first-grade sound characteristics in conjunction with a home theater system. the high-quality silk dome tweeter and the custom-built woofer offer full-range operation even without a subwoofer.

#### effeqt

system: 2,5-way, bass-reflex
amplifier range: 100 – 150 w
frequency range: 40 – 25.000 hz
impedance: 4 ohm
sensitivity: 84 db
height: 124 cm
width: 13/26 cm
depth: 13/26 cm

#### effeqt t

system: 2,5-way, bass-reflex
amplifier range: 100 – 150 w
frequency range: 40 – 25.000 hz
impedance: 4 ohm
sensitivity: 84 db
height: 166 cm
width: 13/26 cm
depth: 13/26 cm

### effeqt wallspeaker

the **effeqt** wall speaker is rotatable and can be mounted both vertically or horizontally, and performs up to the floor standing model in every aspect. the wall bracket is precisely adjustable and allows for an optimal alignment with the listening position.

#### effeqt maxi w

system: 2,5-way, bass-reflex
amplifier range: 100 – 150 w
frequency range: 40 – 25.000 hz
impedance: 4 ohm
sensitivity: 84 db
height: 120 cm
width: 13 cm
depth: 16 cm

#### effeqt w

system: 2,5-way, bass-reflex
amplifier range: 100 – 150 w
frequency range: 60 – 25.000 hz
impedance: 4 ohm
sensitivity: 84 db
height: 68 cm
width: 13 cm
depth: 16 cm

#### effeqt mini w

system: 2-way, closed
amplifier range: 50 – 100 w
frequency range: 80 – 25.000 hz
impedance: 8 ohm
sensitivity: 82 db
height: 26 cm
width: 13 cm
depth: 16 cm

#### effeqt micro w

system: 1-way, closed
amplifier range: 20 – 50 w
frequency range: 100 – 25.000 hz
impedance: 8 ohm
sensitivity: 82 db
height: 11 cm
width: 13 cm
depth: 16 cm

## technical data

### effeqt centerspeaker

indispensable for the perfect sound of a home theater system: the **effeqt** centerspeaker ensures an accurate speech reproduction and intelligible dialogues. a homogeneous sound behavior and an imposing acoustic spaciousness are therefore assured during 5.1-operation.

#### effeqt cs

system: 2,5-way, bass-reflex
amplifier range: 100 – 150 w
frequency range: 60 – 25.000 hz
impedance: 4 ohm
sensitivity: 84 db
height: 16 cm
width: 68 cm
depth: 13 cm

#### effeqt c

system: 2,5-way, bass-reflex
amplifier range: 100 – 150 w
frequency range: 40 – 25.000 hz
impedance: 4 ohm
sensitivity: 84 db
height: 21 cm
width: 119 cm
depth: 13/15 cm

### subwoofer

a low-frequent gain in sound quality for the ultimate movie experience: as exceptionally powerful subwoofers, **vita** and **venom** ideally complement the front, rear and center speakers. their full quality potential unfolds even in pure stereo applications.

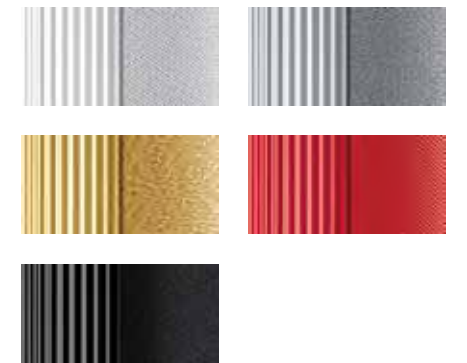

#### vita

system: closed
driver: 1 x 31 cm
amplifier range: 400 w
frequency range: 18 – 300 hz
height: 44 cm
width: 40 cm
depth: 40 cm

#### venom

system: bass-reflex
driver: 1 x 16 x 25 cm
amplifier range: 200 w
frequency range: 38 – 300 hz
height: 42 cm
width: 24 cm
depth: 33 cm

#### colours

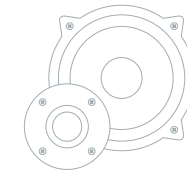

high-gloss white lacquer

gold anodized
red anodized
black anodized

colour matched fabric covers.

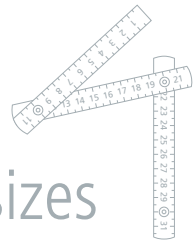

# ceraclassic custom solutions

ceraclassic also allows for custom sizes, colors and types. each of our products is manifold changeable and flexibly adaptable to personal requirements. express your ideas to us – we realize your personal speaker on the basis of our existing product lines. this will take a long time? don't worry! as our products are manufactured exclusively in germany, made-to-order solutions do not take very long.

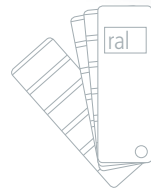

## custom design

upon request we also individually customize the driver configuration of the speakers to your needs: mono (1.0), stereo (2.0), lcr (3.0), active, wireless bluetooth, **cerastream** and 100 volt technology.

## custom sizes

the cabinet is infinitely adaptable to your requirements – with a freely selectable length between 110 and 1,600 mm.

## custom colours

let your taste decide: top and bottom cover, cabinet, front grille, glass base plate and brackets are available in every desired ral or pantone colour shade – high gloss or matte, lacquered or anodized.

**effeqt w** in 1600 mm length, rotated 90°, in lcr design type (an ideal combination with a plasma tv) / fig. without front grille

**effeqt t** in 535 mm height, cabinet, front grille, top and bottom cover in ral 6018

# ceraclassic

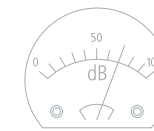

## handmade in germany

speaker systems that meet our uncompromising quality standards, can only be manufactured in elaborate handwork. sound engineers, musicians, physicists – they all are involved in the development of our products. what they all have in common is the passion for perfect sound characteristics. at **ceratec** we measure, analyze and meticulously work until each member of the team is thrilled.

the same applies to the appearance of our products, which distinguishes itself by the exclusive use of high-quality materials such as aluminum, chrome and crystal glass: our design is rooted in the imperishable tradition of the functional design principles already established decades ago by the bremen product designer wilhelm wagenfeld.
